Newsletter April Update

April 12, 2018

It seems as if it will never come but our greenhouse tells a different story. We have abundance blossoming in a

carefully controlled environment. Working in our shirt sleeves is a pleasure. We are quickly running out of space and are anxious to plant some things outside but Mother Nature is in charge and dictates all our moves.

We will have sugar snap peas ready for the St. Norbert Farmers' Market April 21st. Remember members of our CSA a discount of 25%. on our product and produce as well as 10% on our meat.
