March update

March 16, 2016

It's not easy being green when the rain and threatened snow keeps turns the farm into a muddy lake with islands of dirt. That's March in Manitoba.

Fortunately we have a green day tomproww, St. Patrick's day.

Inside the greenhouse it's green. On sunny days it's tropical and the plants thrive. On cloudy days they hold their own, just like the rest of us.

The peppers, herbs, lettuce and tomatoes are started this month. We are itching to get our hands in the dirt outside.

We are getting a hundred new chickens so there should be plenty of **eggs** this summer. Rene and Stefan are busy building a large mobile coop that can move through the pasture and be comfortable for them next winter.

Thanks to those of you who have already signed up.

We have taken on a

fair number of new CSA subscribers. Thank you for your endorsements. **If you intend to subscribe again yourselves and haven't yet done so, please sign up now before the end of the month.** Tomorrow we'll celebrate the green. Check our website at the bottom of the CSA page. Click on the pdf for the sign up brochure.
