Happy New Year. At last we are experiencing a Manitoba winter. Although we enjoy being indoors most of the time, farming does not stop. The chickens are still actively laying eggs in their cosy coop. The seeds have been ordered and are starting to arrive. We will be planting in the greenhouse any day now and would like to remind you to look us up at www.bluelagoonorganics.com and check out our brochure, which is the pdf at the bottom of the CSA page. **First payment will ensure your membership in the upcoming season.**

We will be offering our 15 box summer share and our 20 box summer/autumn share. Membership still includes 25% discount at all Farmers markets we attend, such as the St. Norbert online market which operates throughout the winter.

If you are interested in a Thanksgiving or Christmas **turkey**, please let us know now so we are aware of how many poult to order.
